JUDGING PROCESS AND CRITERIA

At all stages, judges score independently of other judges:

- The judges and Industry Awards representatives have the sole discretion as to the assessment of each photographic entry and their discretion in all aspects of assessment is final.
- Stage one of judging is carried out by Industry Awards representatives.
- Stage two of judging is carried out by hair or barbering industry representatives. Outlined below are the criteria used to judge this award.

Hair: Shows elements of technical skill with the hair being the main focus (i.e. a neutral background is recommended).

Fashion: Including complimentary makeup, clothing & accessories.

Photograph: Quality suitable for magazine cover, how photo can be reproduced, how background ties in with the photo.

TIPS

Create an image suitable for the front cover of a magazine that will forecast fashion for the coming season.

Hot tip: We encourage all entrants to research all forms of fashion media; creating a mood board is a fantastic idea to be able to communicate your ideas with a makeup artist, photographer, fashion stylist and your model. Whilst retouching of your images is not a requirement, we suggest that you retouch your images to magazine standard.

Note: Submitting multiple entries of the same hairstyle with various poses may water down your chances due to each judge choosing a different pose.
