- Stage one of judging is carried out by Industry Awards representatives.
- Stage two of judging is carried out by international hair or barbering industry representatives. Judging is carried out independently and judged blind (competitors are not identified in the judging process). Outlined below are the criteria used to judge this award.

Hair: Shows elements of technical skill with the hair being the main focus (i.e. a neutral background is recommended).

Fashion: Including clothing & accessories.

Photograph: Quality suitable for magazine cover, how photo can be reproduced, how background ties in with the photo.

Note: Submitting multiple entries of the same hairstyle with various poses may water down your chances due to each judge choosing a different pose.
